

linea mini

a la marzocco classic
redesigned for the kitchen

The iconic design and performance of a La Marzocco comes home with the Linea Mini.

Inspired by the Linea Classic, the Linea Mini comes with dual boilers and an integrated brew group that allows the machine to achieve the temperature stability and energy efficiency of the saturated brew group in a reduced footprint. The Linea Mini is handmade with the same components used in our commercial machines to ensure the same durability that the Linea Classic has become famous for.

linea mini features and specifications

Dual Boilers

Separate boilers optimize espresso brewing and steam production.

Integrated Brew Group

A combined boiler and brew group achieve thermal stability in a reduced footprint

Indicator Lights

Lights provide user feedback on heating and water level.

Hot Water Spout

Convenient spout for tea and rinsing portafilters between shots.

Thermal Stability System

As water passes through each element, temperature is further stabilized.

Internal Pump

Self-contained pump without compromising performance.

PID Control

Stepped temperature wheel allows for user adjustment.

Water Reservoir

A self-contained 2.5 liter water tank makes plumbing optional.

Barista Lights

Led lighting allows you to focus on your extraction and the cup.
